

TWG for Action on Accountability and Anti-corruption for the SDGs

A TECHNICAL WORKING GROUP
OF HEALTH SYSTEMS GLOBAL

Welcome to all new members

We would like to welcome all the new members who have joined this new TWG. Together, we are excited to explore and catalyse momentum for effective governance in support of the achievement of Universal Health Coverage.

This TWG is a collaboration seeking to build awareness around the drivers of poor accountability and corruption and identify and celebrate the practical strategies and solutions that can be adopted in response. It builds on research and advocacy between the London School of Hygiene and Tropical Medicine, the Anti-corruption Network convened by WHO and its partners, Transparency International, and the University of Nigeria. We are welcoming and developing relationships with many other organisations in low-, middle- and high-income countries working in this area.

TWG Activities Digest October – December 2021

We have several exciting activities happening for our members to participate in:

Training opportunities: U4 Online Course on “Addressing corruption in the health sector”

– A 3-week, expert-led course running from 11 November – 3 December 2021. Note: for those who are not employed by [U4-partner agencies](#), please register through the course coordinator via email (i.e. the on-line registration form will not work as you need a partner agency email account).

Webinar on “Different disciplinary approaches to addressing corruption in health”

– Watch out for this webinar to come in December 2021.

New Podcast on Anti-corruption & Accountability

– In 2022, we will be launching a brand-new podcast series. More details to come.

Crowdsourcing Campaign on Creative Anti-Corruption Solutions

–We are busy preparing for a crowdsourcing campaign to launch in February of 2022, where we will gather creative solutions that have been effective globally in curbing corruption. We will ask for your support to share this.

Let us know if you can help in any way – we very much welcome any level of contribution! If not sure, contact us and we can discuss how to involve you.
